At Silversea we believe that nothing can rival the wonder of our world. Our curious minds propel us not just to keep exploring our magnificent planet but mostly to experience it. Our mission is to unlock the most amazing experiences and destinations, and deliver them to you in superlative comfort and luxury.

We will never stop searching for the unique, the bold, the bizarre and the beautiful. You can be secure in the knowledge that the flame of our explorer spirit will never go out. Because at the end of the day, we are all travellers, itching with wanderlust, eager to discover what is still left out there.

*“We travel not to escape life,
but for life not to escape us”*

ANONYMOUS

MANFREDI LEFEBVRE D'OVIDIO

Executive Chairman Silversea Cruises

Nothing is as thrilling to me as the anticipation of travel. Whether it is planning, packing or boarding one of our vessels, travelling always reminds me of when I was a child, eager to explore the world. Getting older, that curiosity is still alive. I am still looking at how I can increase my collection of places and cultures.

For me today, there is only one way to travel and that is to travel in luxury and comfort. I am amazingly fortunate because Silversea allows me, as well as many other travellers, to visit the remotest corners of the world, in superb comfort.

But how do I define luxury? Luxury is authenticity, or experience over appearance. It is drinking in the beauty of the world at the highest possible comfort level. It means exclusivity. It means immersion. It is about creating the wonder that we felt as children. It is taking the time to care for you. That is real luxury; for me and for Silversea.

*“Travelling the world is relatively easy
nowadays, but to do it in superlative luxury?
This can only be done with Silversea”*

CHAIRMAN OF SILVERSEA CRUISES

*“When I hear people say that there are no blank
spaces left on the map, no uncharted seas
or shores to discover, nothing new to explore,
I can’t believe it”*

AN EXPLORER AT HEART

*Conrad Combrink / SVP Strategic Development
Expeditions and Experiences*

When we launched Silversea Expeditions, it was met with a certain amount of scepticism. No one believed that we could combine an expedition product with the luxury that Silversea was known for. As our fleet continues to expand, and with the addition of Zodiacs® on our larger ships and the first ever World Cruise to visit Antarctica, I believe our vision proved to be correct. Since Silversea Expeditions' birth, not only have notoriously hard to reach and difficult places become cornerstones of our product, but we have striven to cover every inch of coastline possible. Because to me, modern exploration is about putting places on the map you did not know existed; and delivering them to you in luxury.

The world is constantly changing and we need to continuously evolve our product. This is why we launched the Couture Collection last year. 2019-2020 brings us even more new and exciting land opportunities, such as Silversea Experiences and the new Signature Programmes. I believe that now Silversea has conquered the seas, it can conquer the land. After all, over 71% of our beautiful planet is covered by water; there is still almost another 30% left to discover.

SILVERSEA DIFFERENCE

Silversea's small luxury ships are designed for those who delight in the thrill of discovery while indulging mind and body in the most lavish surroundings imaginable. All accommodations are spacious, ocean-view suites that include butler service, and most include private verandas. Silversea voyages and cruise expeditions sail to over 900 destinations on all seven continents, more than any other cruise line.

*Travel
Deeper*

For almost 25 years, we have been offering travel experiences that resonate on a deeper emotional level than most. 2019-2020 sees us showcasing voyages that are more adventurous, more personalised, and more attuned to local culture, inspiring you toward a path of total destination immersion.

*Intimate
Small Ships*

Big enough for everything you need, yet small enough to remain personal. Our ships range in size from 50 to 304 suites to ensure each of our guests finds the perfect balance between choice and intimacy.

*Over 900
Destinations*

Awarded many times over, our itineraries are probably the best in the world. And when we say the world we really mean it. We will visit over 900 destinations between 2019 and 2020, so whether it is iconic cities or far flung shores, wherever you want to go, you can get there with Silversea.

*Superior
Service*

With a staff ratio of mostly 1:1 and a dedicated butler for every suite, our service remains the jewel in our crown. Devoted, discreet and experienced, these dedicated men and women are the key to turning your trip into a long-lasting memory.

*Gourmet
Excellence*

Perhaps our most talked about distinction, our innovative gourmet excellence stands head and shoulders above the rest. From fine French cuisine and delicate Asian options to relaxed Italian family-style meals, our chef's creativity knows no limits. And with 26 food choices in eight restaurants offered on Silver Muse alone, we know you will have your best gourmet experience at sea.

Silver Whisper

OUR FLEET, OUR FUTURE

Roberto Martinoli / CEO Silversea Cruises

Our fleet is evolving. With over 900 destinations regularly visited, we are the only ultra-luxury cruise line with such a vast – and varied – portfolio. And as our focus on destination experience becomes sharper, we turn our attention towards our ships.

Over the next seven years, Silversea will see many new ships take to the seas, starting with Silver Origin in 2020: a Galápagos-dedicated ship, designed and built with the unique destination in mind. She will be quickly followed by Silver Moon. 2021 will see a further addition, Silver Dawn, followed by the Silver Evolution series in 2022 which will comprise at least two ships. This extensive growth programme builds on the success of Silver Muse and will have Silversea ships stamping its seal of understated excellence across all four corners of the globe.

Of course, this expansion will continue to build on our outstanding level of service and commitment to excellence. Silversea is, and will remain, the leader in onboard personalised service. Therefore, it is once again to all our crew to whom I turn when I say that without you and your tireless devotion, we would not be where we are today. Grazie

A SOCIETY OF FRIENDS

*Fernando Barroso de Oliveira /
Chairman's Ambassador to the Venetian Society*

This year marks a special anniversary for me as I celebrate my Silver – how apt – anniversary with Silversea. 25 years full of laughter, blue-sea days, good times and most importantly good friends. We have shared some wonderful memories together, whether on board or on shore, and I'm proud to say that this year alone I have welcomed at least 30 of you to my home in Portugal.

So it is not without some emotion that my 25th Anniversary comes in the same year that we have announced the first World Cruise to ever visit all seven continents. This to me is typical of Silversea keeping hold of its heritage while pushing its boundaries, not to mention those of the whole ultra-luxury cruising industry. Setting foot on the snowy plains of Antarctica while breaking new ground (or should I say ice?) in the cruising industry, surrounded by my family of friends? Yes, you could say I'm very lucky indeed.

*“If you have ever travelled with us, you know
what I mean. And if you are still considering your
first cruise, welcome to the family”*

AROMATIC ARCHITECTURE

The world of food has changed. A new demand for quality has emerged – a demand for modernity rooted in tradition: simple meals, elaborately constructed using locally sourced, sustainable ingredients. With our global reputation for gastronomic excellence, 2019 sees our culinary offerings build on these philosophies to give you an even deeper destination experience. This means: using local ingredients where possible and authentic, regional recipes that reflect heritage and revamp tradition. These culinary concepts will be spread fleet-wide so that your plate reflects your port. We can choose from the entire planet's ingredients, so why wouldn't we?

We are also excited to announce that Silver Moon will feature an innovative culinary discovery centre that will see demonstrations, lectures and workshops, taking our gastronomic refinement well into the 21st century.

*“It's easy to make it complicated but complicated
to make it simple”*

CAPTURING THE AUTHENTIC BEAUTY OF THE WORLD

Barbara Muckermann / CMO Silversea Cruises

The world is beautiful. Fact. Beauty can be found everywhere; we just have to open our eyes to see it. The spirit of exploration, ingrained in Silversea's DNA, is all about seeking authentic beauty in the remotest corners of the world.

Steve McCurry understands beauty. More importantly, he understands authentic beauty – not the sanitised version that the magazines sell us but the honest, pure, unembellished beauty of the world. In a fraction of a second, he is able to capture the unguarded moments that make up the tapestry of life and turn them into compelling stories. His talent for showing every facet of the world's authentic beauty is unique and infinite. Therefore, Steve's collaboration with Silversea is a natural fit. Let us take you to where that wonderful beauty is, but let him show you how to open your eyes to see it.

Perhaps it was Steve's friend, travel writer Paul Theroux, who best summed it up when he said, "It is impossible to see a Steve McCurry photograph and not to wish to be there".
